

***Eyewear fogging during
interventional and surgical
procedures can be distracting and
dangerous***

Cut Through the Fog...FINALLY, with:

**fog
buster™**

Anti-Fog Lens Treatment System

- ◆ **Cleans and protects**
- ◆ **Two-step system: pre-moistened cleansing towelette and buffing cloth**
- ◆ **Convenient, pocket-size packaging in 60-count Department Box**
- ◆ **Individually wrapped, single use**
- ◆ **Revolutionary formula prevents fogging for hours**
- ◆ **Safe and effective, will not scratch valuable radiation and laser safety lenses**

Seeing is believing. The fog buster system helps you see clearly during interventional and surgical procedures
