

Laser-XTM Radiation/Laser Combo Protective Eyewear

**Protection from C-Arm and imaging fluoroscopy radiation
PLUS laser protection in a single lens**

LX-900 (Matte Black) FitOver frame can be worn as primary frame choice or OVER personal prescription eyewear

LX-1000 (Silver) includes SoftgripTM nosepiece for comfort

LX-66 (Matte Black) includes adjustable temple bars for customized fit

Revolutionary Laser-XTM architecture offers protection for radiation (fluoroscopy) and laser ranges (e.g. 2100nm Holmium YAG wavelengths) during spinal and other surgical procedures in a single frame.

- Three unique frame styles accommodate a wide range of faces and head shapes
- Excellent optical acuity, virtually no distortion in the operative field
- One year warranty from date of sale
- Accessory bonus: Protective case, micro-fiber bag (doubles as a cleaning cloth), ClickFitTM or Croakie-style retaining cord

Radiation Lens Features:

Lead Equivalent Lens: 0.75 mm (+/- .05) Pb glass
Attenuation: 95% radiation reduction at 125 KVP Direct Beam (+/- .05)

Laser Lens Protective Ranges:

900nm-950nm: 4+OD, 80% Visibility, L-6 Rating
950nm-1000nm: 5+OD, 80% Visibility, L-6 Rating
1000nm-2400nm: 7+OD, 80% Visibility, L-6 Rating
2750nm-10,600nm: 7+OD, 80% Visibility, L-6 Rating

Essentials for Safe Imaging[®]

AttenuTech supplies important products and devices that protect medical personnel and patients during medical imaging procedures where dangerous and harmful radiation is emitted, such as CT Scans, Fluoroscopy and NucMed Studies. Every dose from every procedure is significant.
