Revolutionary Adjustable Design for a Custom Fit

- **Sleek frame architecture** incorporates M3 Alloy, a proprietary blend of three metal compounds for lightweight durability
- **Spring hinge frame** for secure, precise fit
- **Adjustable SoftGrip nosepiece** conforms to your features for maximum comfort
- **Rapid Prescription Fulfillment:** The fastest turnaround in the industry

Additional MicroLiteM3 Features

- **ProLiteHT™** high light transmission leaded lenses for unsurpassed optical clarity
- **Graphite** frame finish to reduce glare from surgical lights
- **Attenuation:** 95% radiation reduction at 125 KVP Direct Beam
- **Pb Equivalent Lens:** 0.75 mm (+/- .05) Pb glass.
- **Weight:** 71.8 grams
- **Widest range** of prescriptions available
- **One year warranty** from date of sale
- **Accessory bonus:** protective case, microfiber bag, anti fog lens cleaning solution, adjustable ClickFit™ retaining cord.

Spring hinge frame and adjustable nosepiece put you in control of the articulation, affording a perfect three-point fit:
Protection • Lens Clarity • Comfort

AttenuTech is the only company that designs and manufactures eyewear specifically for your protection in fluoroscopic environments.

All AttenuTech® MicroLite® Series radiation protective eyewear is prescriptionable by design. Our in-house lab will process and ship your single vision or bifocal prescription faster than anyone in the industry.
