Additional MicroLite® Safety Eyewear Frame Options

MicroLitePlus™ Safety Eyewear

Silver (shown) or matte black, DuraLite™ frame technology for comfort and durability, extended temple bars for natural, contoured fit, weighs 1.69 oz.

MicroLite8™ Safety Eyewear

Midnight blue (shown) or silver, 8-base lens curve for extended field of vision and enhanced lateral protection, curved Uniflex temples for flexible fit and more protection, weighs 1.83 oz.

MicroLite® Safety Eyewear Features (all models)

- Adjustable SoftGrip™ nosepiece conforms to your features for maximum comfort
- Soft, thermopolymer inserts on temples for a secure, comfortable grip
- ANSI Z87.1 compliant, meets or exceeds 2008 OSHA "General Requirements" for personal protective equipment (PPE)
- One year warranty from the date of sale
- Bonus Accessories: Adjustable ClickFit™ retaining cord, protective case, microfiber bag (doubles as cleaning cloth) and specialty lens cleaning solution

Plano and Rx Lenses

Plano eyewear features polycarbonate lenses with anti-scratch and anti-reflective coatings.

Rx eyewear features TRIVEX™ lenses with anti-scratch coating. TRIVEX is the world's first tri-performance lens material that offers a triple combination of features never before found in a single material:

Superior Optics. Impact Resistance. Ultra Light Weight.

Optional tint and anti-reflective coatings available.

AttenuTech is the only company that designs and manufactures eyewear specifically for your protection in high risk occupational environments. All AttenuTech® MicroLite® Series safety eyewear is prescriptionable by design. Our in-house lab will process and ship your single vision, bifocal or progressive prescription faster than anyone in the industry.
